<p>C. Reading comprehension</p> <p>The sun at the center of solar system , and the planets around it are among the wonders of creation. Venus is the second planet from the sun which is sometimes called Earth's twin. This is because their sizes and weights are a like. You can see it without a telescope and it is the second brightest object in the night sky after the Moon. Thick yellow clouds are always around Venus. However , Venus and Earth are also different.Venus does not have life and <u>it</u> does not have water like Earth. It takes two hundred and twenty four days to orbit the sun , for Earth it is three hundred and sixty five days. Venus has no moons. It is a dry , hot planet. Strong winds blow all the time. The Romans named it Venus for goddess of love and beauty.</p> <p>True / False</p> <p>35- It takes two hundred and twenty four days for Venus to orbit the sun.</p> <p>36- Venus does not have any moons.</p> <p>37- The underlined it refers to .....</p> <p>a.
